CodeForge AI

Learn Code. Master AI.

26-Week Full-Stack + AI Engineer Program

★ DPIIT-Recognized Startup · Startup India

PyStack AI | JavaStack AI | TypeStack AI

01 From Code to Your Own AI Agent

In the spirit of Claude Code & Claude Cowork — a genuine portfolio centrepiece employers notice.

- **Full-stack app: backend, database & typed frontend**
- **Ship a working AI coding agent as your capstone**
- **Transformers, RAG & AI Agents — explained & coded**
- **Real-world tools: Docker, REST APIs, Auth, Kafka**

02 Choose Your AI Path

Full Stack + AI
26 weeks

CodeForge AI Internship Track
26 weeks

AI Only
4 weeks

03 Pick Your Stack — 3 Streams, 26 Weeks Each

Py PyStack AI

Python · FastAPI · React

Gentlest on-ramp; computer vision with OpenCV.

Jv JavaStack AI

Java 21 · Spring Boot · Kafka

Enterprise discipline; microservices, secured APIs.

TS TypeStack AI

TypeScript · Next.js · Prisma

One language, end to end — fastest to a deployable product.

04 26 Weeks. One Powerful Portfolio.

Phase	Weeks	Focus	Ends With
1	1–4	Language Foundations + AI Workflow	A working CLI tool
2	5–9	OOP / Typing, Testing	A tested mini-system
3	10–15	Backend, DB, REST APIs, Docker	A deployed backend
4	16–20	Frontend + Multimodal AI	A full-stack app
5	21–24	Transformers, RAG, Agents	A working AI feature
Capstone	**25–26**	**Build Your Own AI Coding Agent**	**A portfolio centrepiece**

Pick your stack. Master AI. Build realworld projects.
